Sacro Monte di Varese

Walking up you may admire the 14 chapels dedicated to the mysteries of the rosary. They accompany you up to the arrival at the sanctuary of Santa Maria del Monte. The walk is full of religious suggestions, but not only, because the Sacro Monte is also exceptional from a naturalistic point of view, being part of the regional park Campo dei Fiori. It is an enchanting place, to fill your eyes with extraordinary panoramic views, embracing the lakes and the alps including Monte Rosa.

Parco naturale del Campo dei Fiori

The regional park **Campo dei Fiori** dominates the hilly region of Varese and the padanian plane. It is delimited in the north-east by the valley **Valcuvia**, in the east by the valley **Valganna** and in the south by the city of **Varese**. It comprises two important mountain ranges, **Campo dei Fiori** and **Martica**, separated by the valley of **Rasa**, where the river **Olona** springs. The particular geographic location and the geological characteristics favour a very varied vegetation, with woods of chestnut and beech trees. There are also humid areas and a rich fauna and several historic buildings, such as **Sacro Monte (Unesco World heritage)**, the **Grande Albergo**, the **Liberty villas**, the **Badia di Ganna** and the **Rocca di Orino**.

The most interesting places can be visited thanks to an extended network of hiking trails, well signed and mostly easily walkable. A booklet with maps and descriptions of the trails is available (**Carta Escursionistica dei sentieri**, last edition 2011). There are **21** trails inside the park as well as some thematic

trails with informative panels. Furthermore the following cross the park:

the trail **E1** (running from the north cap in Norway to Sicily all across Europe),

the trail **sentiero del Giubileo** which traces the ancient routes of pilgrims who went from the north of Europe to Rome,

the trail **sentiero 3V (Via Verde Varesina)**, a hiking trail who leads in several legs to the lakes and alps of the region of Varese

the annular trail **valcuviano**, a trail starting from Laveno to the most interesting locations in **Valcuvia**.

Lakes

The province of Varese is famous for the numerous lakes present. The well-known Lago Maggiore, bordering on the western shore with the region of Piemonte and towards the north with Switzerland. Lago di Lugano is also important, again bordering nearby Switzerland. The other lakes, even if of smaller dimensions, provide interesting spots for tourism and offer various possibilities for relaxing and spending free time.

In particular:

Lago di Varese – cycling path

Lago di Lugano – Lugano: city and beach

Lago Maggiore - S. Caterina del Sasso

Cable car onto Sasso del Ferro

Stresa - Rocca di Angera

Lago di Monate - beaches

Lago di Como - Como and Bellagio

About us

Our B&B, recently renovated and with very neat details, is located in the centre of the small town Induno Olona (VA), at the beginning of Val Ceresio, 10 minutes from the centre of Varese and 10 km from the Swiss border.

We accommodate our guests in a small house inside the courtyard. The building was constructed in the local style of Art Nouveau (liberty minore) and is furnished in country style. The house is situated next to the main building, has a separate entrance, a living room with fireplace, a kitchen, where breakfast is served, two bedrooms, a bathroom and a lavatory.
